- Materials for all interest areas (books in English and Spanish)

Our Professional Development Plan:

Teaching Strategies has outlined a professional development plan which includes both resources that can be used locally by teachers and opportunities for them to participate in professional development sessions with an authorized trainer. The resources include a Webinar DVD which highlights online sessions with all of our key authors on various aspects of the curriculum including: *The Creative Curriculum® for Preschool*, *Literacy: The Creative Curriculum® Approach*, *Mathematics: The Creative Curriculum® Approach*, and *The Creative Curriculum® Study Starters* (Science and Social Studies). We are also including our new *The Creative Curriculum® for Preschool in Action DVD* which provides a comprehensive look at *The Creative Curriculum®* and shows how teachers use *The Creative Curriculum®* with intention to guide thinking and decision-making about teaching and learning.

Included in each VPK Starter Kit will be a ticket for participants to attend a 3–4 day professional development session conducted by a Teaching Strategies Staff Development Network Member. Teachers with little or no experience with *The Creative Curriculum®* will leave this session knowing how to:

- design a classroom environment that promotes learning and encourages prosocial behavior
- create a schedule, routines, and plans that allow time for child-initiated and teacher-directed learning
- promote young children's learning in literacy, math, science, social studies, the arts, and technology
- create manageable processes for observing and assessing children and for using *The Creative Curriculum Developmental Continuum® Assessment System*
- plan for individual children, small groups, and the entire class
- develop partnerships with families to support children's learning
- begin implementing an ongoing, four-step assessment system using *The Developmental Continuum*

These sessions will be held in conjunction with major early childhood education conferences throughout the state of Florida as pre-conference opportunities. The session enrollment will be based on the available space at each conference location. In addition, Teaching Strategies will also present workshops as part of the program at each of these conferences to provide more opportunities for participants to become immersed in *The Creative Curriculum*.

Teaching Strategies will also coordinate ongoing professional development opportunities through the Early Learning Coalitions.

Total price: \$1,999.95

Includes curriculum materials and professional development outlined above (with a discount of \$299.95 for purchase of 100 kits or more).
