Proven.

The Creative Curriculum® for Preschool and Teaching Strategies GOLD®

Imagine: a classroom where teachers have all the guidance they need to be effective, with flexibility to make every experience their own. Where teaching and assessment are already directly linked, with support for individualizing instruction for every learner. Where every experience, from large to small, is rooted in the most critical objectives for school readiness and success.

That classroom isn't imaginary—it exists, everywhere that *The Creative Curriculum®* and *Teaching Strategies GOLD®* are being used together. **And they are proven to work.**

The Creative Curriculum® for Preschool and Teaching Strategies GOLD®

Effective. Validated. And even better outcomes together.

Proven to Produce Positive Child Outcomes

An independent, two-year impact study found evidence that *The Creative Curriculum® for Preschool* is effective in helping children achieve positive outcomes. Specifically:

- **Higher literacy and math outcomes.** In just two years, *The Creative Curriculum®* had a greater impact on children's literacy and math outcomes than other comprehensive curriculum systems.
- **Increased teacher effectiveness.** Teachers who used *The Creative Curriculum®* for two years were able to increase their effectiveness, as evidenced by positive payoffs in terms of increased student learning during the second year.

Proven to be Even Better Together

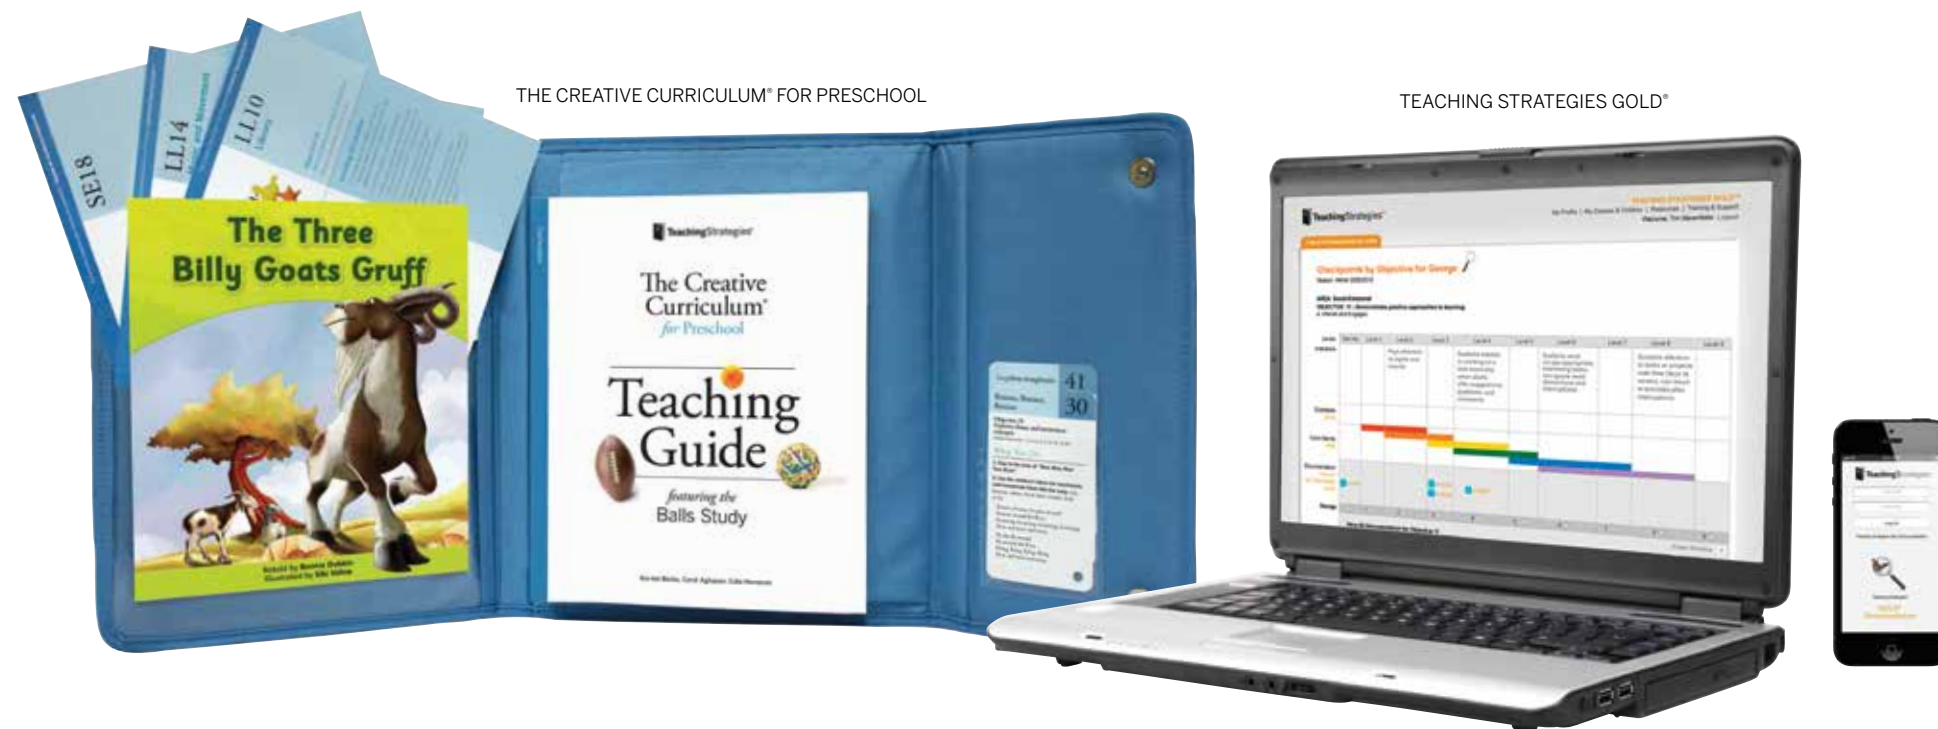

Another new report reveals that children in classrooms using *The Creative Curriculum®* and *Teaching Strategies GOLD®* together had greater growth and higher positive outcomes. Findings included:

- **Higher outcomes in five areas.** Children in classrooms using *The Creative Curriculum®* and *Teaching Strategies GOLD®* together had statistically significant higher outcomes in the social-emotional, language, cognition, literacy, and math areas.
- **Overall positive outcomes.** All the classrooms using *Teaching Strategies GOLD®* demonstrated overall positive child outcomes, regardless of what curriculum was used, suggesting that *Teaching Strategies GOLD®* helps support student achievement in general.
- **Demonstrated effectiveness for all learners.** The research sample was made up of children from across the country, including children with disabilities and English-language learners, suggesting that *The Creative Curriculum®* and *Teaching Strategies GOLD®* are effective for all learners.

Proven to Support Effective Teaching

The Creative Curriculum® and *Teaching Strategies GOLD®* were intentionally designed with the same 38 essential objectives for development and learning at their core. This important connection helps every teacher to:

- directly link assessment and instruction
- focus on what's most important for school readiness and success
- use data to successfully individualize instruction
- provide learning experiences that are meaningful for every child
